Paperwork Reduction Act Notice of Need to Request Form 1095C

The Paperwork Reduction Act amends the Affordable Care Act by no longer requiring employers and health insurance providers to send form 1095C to employees and/or covered individuals under a health plan. Previously employers and/or insurance providers had to send 1095 forms to each full-time employee and/or covered individual. Now, those forms must only be sent when affirmatively requested by an employee and/or covered individual. If an individual requests a form, the form will be provided to the individual.
